Spel 1:

Maak van een houten blokje een dobbelsteen met de letters d, p en b erop. Gooi met de dobbelsteen en zoek het rijtje dat bij de gegooide letter hoort. Lees het rijtje en streep elke keer het gelezen woord door. Heb je alle woorden gelezen? Dan is je toren gebouwd!

Spel 2:

Speel met 3 spelers. Gebruik legopoppetjes als pionnen. De spelers kiezen een rij uit en lezen om de beurt een woord uit hun eigen rij. Uiteindelijk heeft iedereen zijn toren gebouwd!

Spel 3:

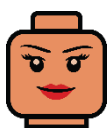

Speel met 2 spelers. De ene speler leest een woord uit een bepaalde rij. De andere speler moet de eerste letter zeggen en zoekt het woord uit de juiste rij op. Dit woord wordt doorgestreept. Lukt het om alle woorden weg te strepen en de toren te bouwen?

Spel 4:

Pak echte legoblokjes. Elke speler heeft een eigen kleur blokjes. Je kunt dit spel met 1, 2 of 3 spelers spelen. Pak de dobbelsteen met de d, p en b. Gooi met de dobbelsteen. Lees het eerste woord uit de rij. Zet dan een legoblokje voor jezelf neer. Elke keer wanneer je een woord gelezen hebt, zet je een nieuw blokje op je toren. Nu bouw je de toren in het echt!
